# Aaryan S. Maralihalli

Integration Engineer | AI / LLM Builder

Bangalore, India · hybrid-ready · aaryanmaralihalli@gmail.com · +91-9019884683 · github.com/Aaryansm11 · linkedin.com/in/aaryan-maralihalli

## Summary

Hands-on Integration Engineer on HyperVerge's Solutions team who **builds, not just advises** — Python + AI apps (**RAG, LLM assistants, agentic workflows**) shipped *with* customers. At **HyperVerge**, post-sale **technical advisor** to **6 enterprise fintech clients** — took **3 live at >95% verification conversion (~10% lift)** across 15+ lines-of-business. Built a **secure RAG service** (FastAPI/FAISS, RBAC + audit), fine-tuned **Mistral-7B (LoRA)**, and a **Neo4j knowledge-graph** service; **AI-native** — build with Claude Code daily. IEEE-published; CS 2026.

## Experience

**HyperVerge, Bangalore**
*Integration Engineer, Solutions Team (Intern)* Jan 2026 – Jun 2026
*AI identity-verification / KYC platform for enterprise banks & fintechs*

- Served as the **post-sale technical advisor** for **6 enterprise fintech/lending clients** — owned the technical relationship from architecture and design through implementation and go-live.
- Built and shipped **custom REST/SDK integrations** and **onboarded client data sources & workflows** across **15+ lines-of-business** — CKYC, Video KYC, eSign, Liveness, Face Match, DigiLocker, OCR/PAN.
- Drove **expansion** by identifying and adding modules clients hadn't scoped — took **3 clients live at >95% verification conversion (~10% lift)** over their prior flow.
- Troubleshot production issues **end-to-end** — log analysis, conversion/drop-off transaction tracing, and RCAs — with daily monitoring to stabilize go-lives.
- Authored **Solution Design Docs** and ran integration walkthroughs to **enable client technical teams**; partnered with **Product & Engineering** (JIRA) to close feature gaps and ship fixes to production.

**Integrated Genetic Solutions (IGS), Bangalore**
*Project Intern, Medical AI & Web Dev* Jun – Aug 2024

- Migrated a legacy Bootstrap-JS dashboard to **React (MERN)** on a HIPAA-compliant medical-AI product, improving processing of **5M+ records**; supported React + Django API integration.

## AI / LLM Projects

**SDIS — Secure RAG service** github.com/Aaryansm11/SDIS

- Retrieval-augmented document intelligence — FastAPI APIs, **FAISS** vector search, **spaCy PII redaction**, **RBAC/JWT + immutable audit logging**; Dockerized on **AWS ECS** with pytest + GitHub Actions CI.

**LANGTRON — AI assistant on LLMs** github.com/Aaryansm11/LANGTRON

- Fine-tuned **Mistral-7B (LoRA)**; dual-model retrieval + reasoning over a **FAISS vector database** with sub-100ms search; runs 100% local.

**Langtron-KGS — enterprise knowledge-graph service** github.com/Aaryansm11/Langtron-KGS

- **SpaCy NER + BERT** relation extraction → **Neo4j** with entity linking, behind a FastAPI REST API + Streamlit explorer.

**AI-native work agent**

- Built a hotkey desktop tool wiring **Claude Code (headless)** over a knowledge base — capture, retrieval, and confidence-scored Q&A; an **agentic AI workflow** I use daily.

## Skills

- **Languages:** Python, Java, SQL, JavaScript (React)
- **AI / LLM:** RAG pipelines, LLM fine-tuning (LoRA), AI assistants & **agentic workflows**, **LangChain**, **vector databases (FAISS)**, **knowledge graphs (Neo4j)**, MCP (familiar); build daily with **Claude Code / Cursor**
- **Integration & APIs:** REST, JWT/OAuth, webhooks, SDK integration, **custom data-source onboarding**, Indexing/Search/Chat-style APIs, Postman
- **Cloud & Ops: AWS** (EC2/S3/IAM/ECS), Docker, nginx, CI (GitHub Actions); networking — API auth, IP whitelisting, staging/prod
- **Customer & Delivery:** post-sale technical advisory, solution design, **customer enablement/training**, troubleshooting (log analysis, transaction tracing), **security & audit**, BI & stabilization

## Publication & Education

- **IEEE ICASI 2026 (Kyoto), Oral Presentation** — "An Interpretable Model for Stroke Prediction and Arrhythmia Classification using ECG & PPG."
- **B.Tech, Computer Science** — PES University, Bangalore — 2022 – Jul 2026
