Aaryan S. Maralihalli

Technical Account Manager / Customer Solutions Engineer

Bangalore, India · open to remote · aaryanmaralihalli@gmail.com · +91-9019884683 · github.com/Aaryansm11 · linkedin.com/in/aaryan-maralihalli

Summary

Technically-fluent account owner driving onboarding, adoption, and measurable impact. At HyperVerge, owned **6 enterprise fintech accounts (15+ LOBs)** — took **3 live at >95% conversion (~10% lift)**, ran post-go-live stabilization, and tracked delivery via internal tooling. Bridges client needs and engineering. CS graduate (Jul 2026), IEEE-published.

Experience

HyperVerge, Bangalore
Integration Engineer Intern (client-facing) Jan 2026 – Jun 2026
AI identity-verification / KYC platform for banks & fintechs

- Owned **6 enterprise fintech/lending accounts** — spanning **15+ lines-of-business** (HomeCredit, PaytmMoney, Mobikwik, Shivalik Bank, IndMoney, Emergency Paisa) — from discovery through go-live and stabilization.
- Took **3 clients live at >95% verification conversion — a ~10% lift** — by mapping each client's pain points to the right solution and **proactively recommending modules they hadn't scoped but needed**.
- Drove **post-go-live Business Impact (BI) & stabilization**: monitored conversion/drop-off, flagged issues, and pushed optimizations; coordinated Product/Engineering on JIRA to close gaps.
- Managed deal milestones in HubSpot and built **"HV Deals Bot"** (Python + Slack) so every account's stage and next steps were tracked and nothing slipped; **3 more accounts in active integration** at handover.

Integrated Genetic Solutions (IGS), Bangalore
Project Intern Jun – Aug 2024

- Migrated a legacy dashboard to **React (MERN)** on a HIPAA-compliant medical-AI product; supported secure-upload and API integration.

Selected Projects

HV Deals Bot

- Python + Slack tool that tracks deal stages/next steps across the team and documents the delivery process for new joiners.

SDIS — Secure Document Intelligence Service github.com/Aaryansm11/SDIS

- FastAPI microservice with RBAC, PII redaction, and audit logging — demonstrates hands-on technical depth behind client conversations.

Skills

- **Account & Delivery:** onboarding, adoption, QBRs & review cadence, performance-metrics reporting, upsell/cross-sell, BI & stabilization, stakeholder management, escalation handling
- **Technical fluency:** KYC/identity, REST APIs, SDK integration, solution design, SQL, Python
- **Tools:** HubSpot, JIRA, Notion, Slack, Git

Publication & Education

- **IEEE ICASI 2026 (Kyoto), Oral Presentation** — *"An Interpretable Model for Stroke Prediction and Arrhythmia Classification using ECG & PPG."*
- **B.Tech, Computer Science** — PES University, Bangalore — 2022 – Jul 2026
- *Certifications:* WebGL (PESU I/O); Problem Solving — Intermediate (HackerRank); CITI Program
